- Below Dock End Loading Capability
- Lockout/Tagout Maintenance Strut
- Lip Supporting Service Strut
- Night Locks/Cross Traffic Support
- Multiple Position Safety Stop
- Full Range Toe Guards
- B410-14 Laminated Bumpers

Pit Style Levelers Air Powered

Structurally Superior By Design!

Poweramp AP Series Leveler is a push button air powered leveler that combines push button activation with a price which rivals most mechanically activated levelers to bring value, power and performance to your loading dock.

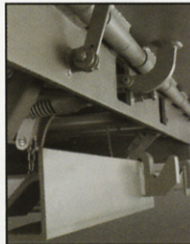

At the heart of the unit is a stationary mounted fan motor that delivers a low pressure, high volume air supply to the air bladder to provide reliable raising and positioning of the deck assembly. A 115V single phase motor comes complete with fan, filter and "receptacle type" plug end for simple installation.

Servicing trucks above dock with extended 20" lip plates is not a problem with Poweramp AP Levelers. The unique lip latching mechanism (patent pending) provides positive, full height lip extension and is fully yieldable in case of impact with a backing truck.

A lockout/tagout maintenance strut and lip supporting service strut are standard on the AP Series Leveler.

The AP Series Leveler provides multiple position free-fall protection should a truck depart prematurely. The legs are sized and positioned to minimize obstructions during below dock loading operations.

Pound for pound, the deck and sub-frame structure of the AP Series Leveler is superior to competitive models and will provide you with years of reliable service.

AP Series 7' x 10' 50,000 CIR shown.

AP Series Common Options...

- Integrated Control Systems
- Extended Lip Sizes (18" and 20")
- Weatherseal (Brush or Rubber)
- Safety Barrier Lip
- CleanSweep Frame™
- 3-Wheel Forktruck Protection (20k to 30k CIR)
- Foam Insulated Deck
- Dock Alert Light Communication Package
- Integrated Vehicle Restraint
- Dock Light

The AP Series Air Powered Leveler is available in a wide range of sizes and capacities and can be modified for special applications.
