RYTEC'S TWO-DAY TRAINING COURSE

## Learn the Basics of Installation, Operation, Adjustments & Troubleshooting.

The Rytec Service School, developed for customers, dealers and field installers, covers the electrical and mechanical aspects of door operation, service and installation. These two-day, hands-on workshops cover door activation, motors, limits, required mechanical adjustments and maintenance. The training program has proven to be invaluable in helping with preventative maintenance and advanced troubleshooting.

**Hands On** - Take part in general classroom training as well as hands on adjustments and troubleshooting sessions at Rytec's state-of-the-art training facility.

**Factory Tour** - Included in the training course is a tour of Rytec's corporate office and manufacturing facility, including the state-of-the-art wind tunnel and testing area.

**Class Discussions** - Speak one-on-one with our trained service technicians.

**History of Support** - Since the first class in 1993, Rytec has trained over 1,000 customers and dealers.

**No Charge** - The two-day training course, all of the training materials, hotel accommodations and meals are all provided. Attendees are responsible for their own transportation to and from Rytec's corporate headquarters in Jackson, Wisconsin.

# SERVICE SCHOOL

RYTEC'S TWO-DAY TRAINING COURSE

**Service Binder:** Attendees receive a full set of door and activator operation manuals.

**Certified Training:** Attendees receive a certificate of completion after finishing the two-day course.

**On-site Training:** For information regarding on-site training at your facility, please contact your local Regional Sales Manager.

**Attending a Class:** To receive further information, including a current class schedule, please call our corporate headquarters at 262-677-9046 or visit our website at [www.rytecdoors.com](http://www.rytecdoors.com).

**Training Questionnaire:** At the end of every training course, we ask the attendees to fill out a short questionnaire. Below are some of the additional comments received:

*"Communication prior to the class and during was excellent. The plant tour was very helpful to understanding the manufacturing process. The atmosphere of the staff was positive and welcoming. Overall, the time spent was very helpful and informative"*

-Steven, Rytec Distributor

*"Thoroughly enjoyed the whole experience - I have been to (other door manufacturers) and you have them all beat hands down."*

-James, Rytec Distributor

*"All of the questions I had on my doors have been answered and I learned new troubleshooting shortcuts."*

-Paul, Food Service Company

*"My experience was excellent and I was able to walk away confident in my ability to service your product line effectively."*

-Mike, Rytec Installer

*"Very knowledgeable instructors and excellent hands on training equipment"*

-Scott, Pharmaceutical Company
